

KINKBMX

2020 BIKE COLLECTION

DEALER PREVIEW

KEEP MAKING SOMETHING BETTER

Twenty-twenty, or clarity of vision. A phrase that couldn't be any more appropriate for our 2020 model year Kink BMX bike line. Each model in the Kink BMX line is truly its own bike, with its own personality and its own purpose. Every angle, component, color, finish, and decal are chosen and designed with intention. Our riders, customers, dealers, and distributors all continue to provide invaluable feedback that pushes us to make our bikes just that much better, year after year. All these aspects combined have allowed us to truly execute our vision for the 2020 bike line-up, and to achieve our ultimate goal to make something better.

The first new model you will see for 2020 is the Pump, our first ever 14" bike. Having a bike that fits correctly is crucial, no matter your age or height, and our new 14" bike fills a void that is found in so many BMX bike lines. Not only does it fill that void, but it does it in ways that make sense with properly scaled geometry, standard fitting BMX components, and the modern BMX look.

As the Kink BMX brand and product line continue to evolve, so does our team of pro riders which can be seen reflected this year with our two new signature models. First up is the all-new Travis Hughes signature Cloud bike, with geometry, color, and graphics all inspired by Travis himself. The Cloud comes stacked with a freecoaster, four nylon pegs, and removable brakes for a truly street ready ride. Last but certainly not least, our new flagship model, the Williams, Kink pro team rider Nathan Williams' first signature bike. The Williams features a truly unique tinted raw frame colorway and is loaded with Cinema aftermarket parts like the Cinema Rewind sprocket, Cinema Williams signature tires, and Cinema C4 nylon pegs.

Digging in deeper, you will find many more improvements and upgrades across the line. Smaller, adjustable brake levers on the Pump 14" and Carve 16" make it easier for kids to use their brakes. The Whip and Whip XL have been upgraded with a double wall front rim, making this bike truly free of compromises. Stealth seats are now featured on all bikes from the Gap on up the line, and now Cinema aftermarket parts are featured on our flagship Williams bike.

We couldn't be prouder to share our new 2020 Kink BMX bike line with everyone and to continue doing our part to make something better. Thank you for sharing our love of BMX and thank you as always for supporting Kink BMX.
