S C O O T E R S

My name is Dakota Schuetz and I am 20 years old. I first started riding a scooter when I was 10 and haven't stopped since. Over the years the love that I have for the sport has enabled me to travel the world, compete at the highest level and most importantly meet some incredible people. My main goal is to get as many young children, both boys and girls, to ride scooters and most importantly just enjoy themselves. I still remember landing my first ever trick and there's not a better feeling.

Its great that I can share my passion with so many people around the world and I really hope that you all enjoy my Scooter Range, I certainly enjoyed designing them.
