thermopad®
Keeps you warm!

Thermopad GmbH is a leading provider of active charcoal-based warmers in Germany. The heating pads are made from a mixture of natural materials like powdered iron and charcoal. In conjunction with oxygen the powdered iron heats up automatically.

ADVANTAGES OF THERMOPADS

- easy to store
- quick to replace
- constant warmth for many hours
- no pre-heating necessary
- light and comfortable

The advantages of active charcoal warmers can clearly be seen when compared with gel-heat pads already widespread in this country. Gel warmes are multi-functional as well but have a decidedly shorter warmth duration of about an hour. Besides that, gel-pads are not suitable for cold feet, because they are more bulky.

POS-SUPPORT

- All products are supplied in practical table-top displays
- All products also available as Maxi-Pack (5 pcs.)
- The entire product range can be presented in a metal or cardboard floor display unit, available separately
- Application and safety instructions in four languages (DE, EN, FR, IT)
- Euro hole in the packaging makes the products suitable for hanging displays
