

2019 PRODUCT INFORMATION

HARO BMX / FREESTYLE, RACE, YOUTH

We could go on and on about the role our brand played by introducing to the world the very first freestyle specific frame and fork 36 years ago. About how Haro has become the trusted brand in BMX for four decades spanning three generations of loyal and satisfied customers. Or about how Haro continues to attract the finest world class athletes that ride and promote the brand because they love Haro and love what they do. Those are all true and as a result, Haro is sold in the finest retailers world wide. But what you might not know, is that while Haro is synonymous with BMX, we are not just BMX. We are so much more.....

PREWHEELZ BY HARO / BALANCE BIKES

Time for your child to embark on a journey of a lifetime! PreWheelz Balance Bikes are a durable, affordable, and stylish way to start your child off in the living room and lead them all the way to an Olympic podium, all on a trusted brand that's been around for more than 40 years, and all on the same brand you carry in your store. Packed full with features, PreWheelz boasts an industry leading Limited Lifetime Warranty. PreWheelz by Haro, Balance that Counts!

PREMIUM PRODUCTS / STREET INSPIRED FREESTYLE, INNOVATIVE PARTS AND ACCESSORIES

By collaborating with a team of exceptional riders, Premium has lived up to the definition of its name by innovating and setting the standard in the ever changing world of BMX for more than a decade. Small and core by design, Premium appeals to riders that are unique and prefer obscurity over popularity, and non-conformity over size. Bred for the streets, by riders, for riders.

HARO MTB / PAVEMENT, MTB FREESTYLE, HARDTAILS, FULL SUSPENSION, PLUS

Taking inspiration from Haro's heritage in BMX, Haro MTB features striking designs that dare to be different while maintaining performance capabilities well beyond its price range. Its playful and sometimes mischievous personality seeks to return the focus of Mountain biking to a free spirited and unencumbered source of entertainment and joy through its broad collection of Pavement, hardtail MTB, Plus size hard tails, and full suspension trail and all mountain bikes. Haro MTB. Refuse to Follow.

MASI BICYCLES / CLASSIC STEEL ROAD, GRAVEL, COMMUTER, TOURING, ADVENTURE, PERFORMANCE ROAD, CYCLOCROSS

For more than 90 years, Cicli Masi has created cutting-edge racing bikes out of the most modern materials with a laser-focus on crafting the best ride in the industry. Steel has given way to aluminum and carbon, but we have never forgotten our roots. We continue to craft class-leading bikes from whatever material allows us to imbue that magical Masi ride. Masi Bicycles. "Its all about the ride."

DEL SOL BICYCLES / LIFESTYLE COMFORT, CRUISER, HYBRIDS

Del Sol bikes are inspired by the Sun. From laid-back beach cruisers to comfort and hybrids. Del Sol boils the enjoyment of cycling down to its most simple form...a carefree lifestyle and riding experience where there is no room for status, and where nothing is owed and nothing promised... except good times and great rides fueled by the energy of the sun!

D STREET BY DEL SOL / URBAN, TOWNE, AND CAFÉ

The D Street collection by Del Sol is your transportation solution for urban living. From functional commuters to eye catching Towne bikes, our fresh take on classic bike styles will let you human-power the errands in your locavore life, from the farmer's market, to the food truck, to the local grind house.

I/O ELECTRIC / PAVEMENT, MTB HARDTAILS, MTB FULL SUSPENSION, PLUS, LIFESTYLE COMFORT, CRUISER

I/O Electric equipped bikes take input from your pedaling efforts and amplify output beyond that of conventional bicycles by way of its battery-powered motor. You can ride up hills easier, ride further, faster, and longer. With more than 40 years' experience in the conventional bicycle world, Haro and Del Sol have created a series of I/O Electric pedal assist models that are extensions of each brand's respective lines and are specifically suited for fun, commuting, and off road use. I/O Electric.

BMX / Freestyle is deeply rooted in the DNA of our brand and that will never change. Introducing the worlds very first freestyle specific frame and fork to an emerging sport is something that we are very proud of, nearly as much as being the leading brand in freestyle 35 years later. Today BMX is not only a sport, it's a lifestyle. It's a choice you make to be a part of, a way you choose to express yourself, and it's the way you find your freedom. Haro builds a broad range of BMX freestyle bikes that help you do just that, from Pro builds all the way down to slightly more affordable yet fully capable machines. We have always had the best professional riders on our bikes which makes for a great research and development team (minus the white lab coats - see Team). ***The result? See for yourself!***

HARO BMX
CK AM

Matte Black: 20.75"; 29381

Frame	100% crmo w/ integrated HT & Mid BB shell
Sizes	20.75" TT
Colors	Matte Black
Fork	100% crmo w/ 1-pc CNC steer tube & tapered legs
Headset	1 1/8" integrated threadless
Crankset	Haro 1978 3-pc crmo 8-spline 175mm
BB	Sealed Mid
Sprocket	Haro Team Disc 28T CNC alloy
Gearing	28/9
Chain	KMC Z410
Pedals	Haro "1978" plastic
Handlebar	100% crmo 8.75" rise
Stem	Premium CK CNC alloy top load
Grips	Haro Team Flange-less
Saddle	Haro Pivotal
Seat Post	Alloy Pivotal 25.4mm
Seat Post Clamp	Integrated welded to frame
Front/Rear Axle	3/8" F / 14mm R straight axles
Front Hub	36H alloy shell sealed bearing
Rear Hub	36H alloy shell LSD free-coaster w/ 9T driver
Front/Rear Rim	Haro Sata 36H alloy double wall F/R
Front/Rear Tire	Premium CK 20x2.40 F/R
Pegs	4 pegs
Brakes	Haro 1978 Alloy 990
Brake Lever	Haro hinged lever
Extras	Hub guards

MATTE BLACK

FEATURES

- 100% chromoly frame with integrated head tube, tapered stays and investment cast dropouts
- 100% chromoly fork with internal threaded 1 piece CNC steer tube, tapered legs and 5mm dropouts
- 100% chromoly bars 8.75" with Premium CK CNC alloy top load stem
- Haro 1978 3-piece chromoly 8-spline 175mm cranks with sealed Mid BB

UPGRADES FROM MIDWAY

- 100% chromoly frame with removable brake and cable mounts
- 100% chromoly bars
- CNC alloy top load stem
- 100% chromoly fork with one piece CNC internal threaded steer tube and tapered legs
- 28/9 gearing with alloy CNC sprocket
- Haro Sata double wall rims

HARO BMX SD AM

DAVE MIRRA TRIBUTE SERIES

Dave Mirra played a huge role in the growth of BMX freestyle and the worldwide media exposure the sport has attained. And he wrote much of the sport's history while he rode for Haro.

In celebrating Dave's long career with that other brand, Haro and Mirraco Corporation have teamed up to create bikes that reflect that history and pay tribute to the bikes Dave rode during his career with Haro. In keeping with Haro/Mirraco's focus on giving back to the sport, a portion of the revenue generated through the sales of these Haro models will be donated to DaveMirra.com to support organizations that support youth cycling.

These second models will be released in September 2018 that will duplicate the bikes Dave also rode late 1999. These bikes have been designed to look like the original and perform like today's high-end freestyle bikes.

Check www.harobikes.com or www.davemirra.com for availability and information on additional Haro/Mirra models being planned.

DAVE MIRRA TRIBUTE SERIES

MIRRA 16

BRED TO SHRED.

Remember your first bike? Of course, you do. We all do! And Haro wants to help make those memories the best that they can possibly be for your kids as well. We understand that owning a good quality bike for your child is reassuring. Every Haro bike we make is safe, strong, and reliable. All standard Shredders feature a lightweight and rust free 6000 series aluminum frame backed by a limited lifetime warranty. We are well aware that a bike not only needs to function but it also needs to feel good and look cool. That's why we make sure that every Shredder series bike carries the same DNA as our flagship models costing much more.

THE PURSUIT OF EXCELLENCE

At Haro we know that the difference between winning and losing is not always what happens on the track. The difference between winning and losing is what happens before the race. It is the countless hours of training, hard work and dedication. Winning doesn't happen by accident. It is a result of pushing yourself to the limits when the doubters think you can't. This is the same approach Haro uses to build a BMX Race Bike. Countless hours are expended in creating a geometry that maximizes effort and construction methods that use state of the art materials that trim weight and increase performance. From aluminum to carbon fiber, these same methods have helped Pros and Amateurs alike realize their dreams. We were born to race and so were you.

PreWheelz
by HARO

Time for your child to embark on the journey of a lifetime! A PreWheelz Balance Bike by Haro is a durable, affordable, and stylish way to start your child off in the living room and lead them all the way to an Olympic podium, all from a trusted brand that's been around for nearly 40 years. PreWheelz come complete with features you won't often find on competitor's models. Scuff free and lightweight EVA tires won't damage floors and are tough enough for outdoors. EZ quick release allows for tool free saddle height adjustment while an oversize padded saddle has a convenient grab handle standard. All this bolted to a lightweight and rust-free 6000 series aluminum frame that boasts an industry leading Limited Lifetime Warranty for added confidence.

WHY PreWheelz by HARO

Oversized Padded Saddle with instructor grab handle

All new 1-piece bar/stem combo w/pad protector

Durable Ball Bearing Headset provides stable and smooth steering

Quick release allows quick and easy saddle height adjustment with no tools required

Newly designed 6061 Alloy frame with foot rest platform

PREWHEELZ

12^{SE}

Freestyler Turquoise/Mint: 29052

Some 30 years ago, at the dawn of BMX Freestyle, Haro Bikes established itself as the pioneer, the trailblazer: the "First in Freestyle." Some of the most talented riders of that era rode Haro bikes and now, as they find themselves buying bikes for their own kids, we proudly offer the limited edition Freestyler model. You only ever have one first bike so why not give your child something that they can really remember? Give them the very, very best: PreWheelz limited edition Freestyler by Haro!

Made from lightweight 6000 series aluminum, it brings all of the features of the popular PreWheelz range as well as Haro's iconic twin top tube! Until now there has been no such thing as a high-end balance bike for 2-5 year olds but the lightweight Limited Edition Alloy has changed all that!

PreWheelz
by HARO

- 6061 alloy crank-less "Balance Bike" SE frame design with foot rests
- 6061 alloy fork
- High impact 12" mag wheels
- Scuff-resistant tubeless tires
- Adjustable handlebar height
